My Own Hieroglyphics

English only has 26 letters. Those letters are combined into words...and then into sentences...which tell a story.

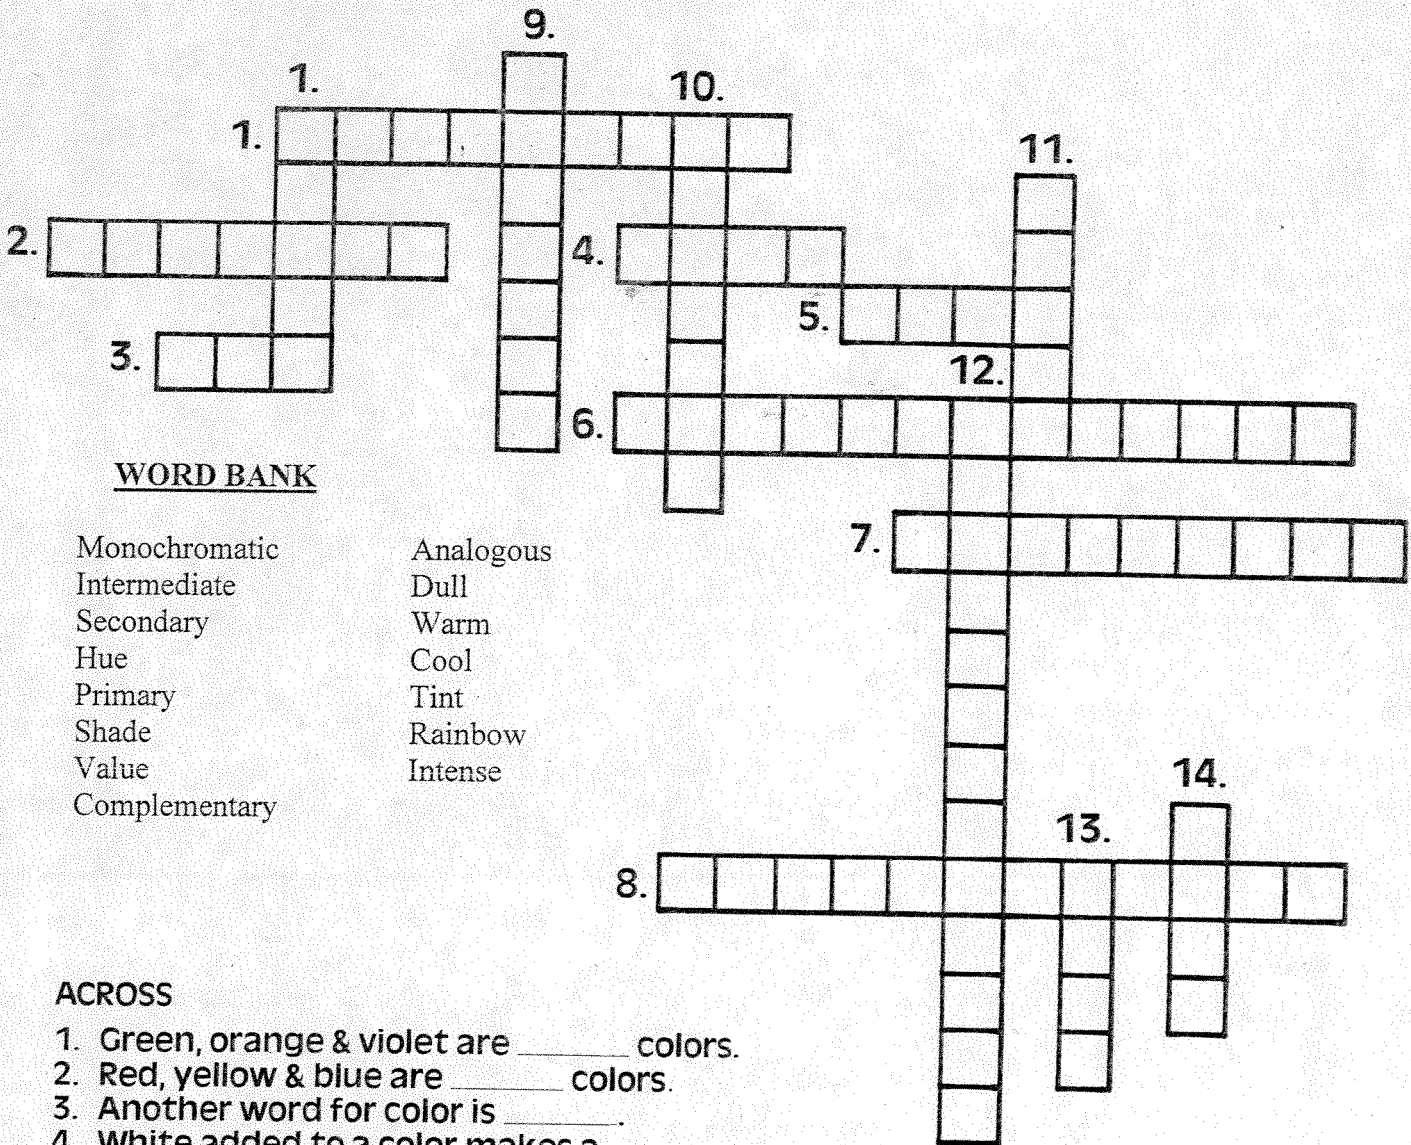

Ancient Egyptian writing uses more than 2,000 hieroglyphic characters. They look like little pictures! Each hieroglyph represents a common object in ancient Egypt. Hieroglyphs could represent the sound of the object or they could represent an idea associated with the object.

Hieroglyphics were usually written from right to left, instead of the way we usually write things. Other times they were written up and down. When Egyptians wrote, they didn't just write one hieroglyph after the other, like letters in a word. They arranged them neatly in rows and columns, sometimes stacking letters on top of each other.

These are MY HIEROGLYPHICS:

A	B	C	D	E
F	G	H	I	J
K	L	M	N	O
P	Q	R	S	T
U+W	V	X	Y	Z
